

CE #	SUBJECT	DATE ISSUED	VALID UNTIL
CE-SGL-2026-01	Dasho Platform Subscription · Multi-Brand Governance	September 1, 2026	October 31, 2026

Ms. Louie Maranan

Sigil Digital Marketing

Hi Louie,

Here is the cost estimate for Sigil on Dasho.

Sigil runs fifteen brands across four subscriptions, and the content rules, drafts, approvals and history for those brands sit in different places. This estimate covers the Dasho platform subscription that holds all of it in one workspace that Sigil owns.

The subscription is **USD 1,000 per month**, covering **15 to 20 brands** and **up to 25 users**, held at that rate for **12 months from signing**. Setup and onboarding is **USD 1,500**, invoiced once on signing.

Page 2 sets out what the subscription includes. Page 3 sets out the full commercial terms. Page 4 sets out the onboarding schedule, the two items we need from your side to finalise scope, and where to countersign.

Rates are in **United States Dollars** and are **exclusive of applicable taxes**. This estimate is valid until **October 31, 2026**.

SCOPE

What the *subscription* includes

INCLUDED	WHAT IT DOES FOR SIGIL
A Brand Card per brand	Each client's voice, audience, proof points and the rules their content must meet, written once. A new writer or designer reads one page instead of hunting for a PDF.
Scoring on every draft	Each caption and article is scored against that brand's own rules, so a reviewer opens a draft that is already marked against those rules.
Requests and approvals	Briefs, a board, comments and approvals in one workspace, using request templates Sigil defines.
Full activity history	Every revision, who made it and who approved it, kept per brand. When a client asks why a post went out, the record is on the post.
A governance score per brand	Open any brand Sigil runs and see how that brand is holding to its own rules, with the weakest dimensions named.
Creator campaign governance	Brief external creators inside Dasho and score what they submit against the brand's rules before Sigil approves it.
Philippine beauty rulebook	Cosmetics and personal care advertising rules, applied during onboarding to the brands Sigil nominates.

Every brand Sigil runs sits in the same workspace, under the same rules, with one record of who wrote what and who approved it.

COMMERCIAL TERMS

Rate and *charges*

ITEM	DETAIL	AMOUNT
Dasho platform subscription	15 to 20 brands, up to 25 users. Rate held for 12 months from signing.	USD 1,000 / month
Setup and onboarding	Brand Card build with your team, rulebook applied to the brands you nominate, and platform enablement on calls.	USD 1,500 one time
Month one total	Setup invoiced on signing, plus the first month of subscription.	USD 2,500

TERM	DETAIL
Brands covered	15 to 20
Users	Up to 25
Term at this rate	12 months from signing
Commitment	Monthly, cancellable on 30 days written notice
After month 12	USD 1,250 to USD 1,500 per month
Billing	Subscription monthly in advance. Setup invoiced on signing. Payment within 15 days of invoice.

Setup and onboarding

Setup is charged at USD 1,500 and invoiced on signing. It covers building your Brand Cards with you, applying the rulebook to the brands you nominate, and getting your team working in the platform. Onboarding is delivered on calls with your team rather than as documentation, and it is priced on that basis.

After month twelve

From month thirteen the subscription moves into a band of USD 1,250 to USD 1,500 per month. Where Sigil sits in that band is set by the number of brands carried and how many of those brands sit in a regulated category. Above twenty brands we price per additional brand.

ONBOARDING**How we *start***

WHEN	WHAT HAPPENS
Week one	We build Brand Cards with your team for your five largest brands, on a call rather than as homework.
Week two	Your team runs live work through those five brands. We watch the sessions and fix what gets in the way.
Week three	The remaining brands move across, and we agree which of them need a rulebook applied.
Month two onward	A monthly review of governance scores across your portfolio, run with us.

To finalise scope we need two answers

01 How many of your fifteen brands sit in a regulated category, and which categories those are.

02 Who signs off product and service claims on those brands today, Sigil or the brand owner.

Both answers set which rulebooks are applied during onboarding and where Sigil sits in the band after month twelve.

Currency and taxes

All amounts are in United States Dollars and exclusive of applicable taxes.
